

- The boulder is natural looking on the backside.
- The front side is cut to bring out the 'grain' look of the rock.
- 'Teacher' is just imposed. The font is accurate but it will not be black.
- The 'Teacher' letters will be raised.
- The rock edges will be natural-no glossy finish.
- The semi-cut rock will make it more manageable so on the receiving end it will be easier to move.
- The leg on the picture hopefully gives perspective on the size of the rock.
